LOUISE TUCKWELL

ABSTRAKTIV

The idea of limitless combinations of colour, patterns, shapes and textures, whether simple or complex, is the starting point for Louise Tuckwell's vibrant, non-objective works. Sparked by an interest in geometric patterning within the everyday, Tuckwell's work searches for a system of balance and harmony – drawing on the influential algebraic and geometric work of Ancient Greek mathematician, Euclid. His systems of logic, opposing axioms and geometry pervade Tuckwell's intuitive compositions. Suggestion, surprise and a subtle sense of humour are also important elements for Tuckwell. Contrastive diagonals, obtuse colour juxtapositions and subtle perspectival shifts demonstrate a bold and playfully abstract architectural language.

Tuckwell originally studied at the Julian Ashton Art School and later graduated from the National Art School, Sydney. She has been exhibiting her work for over 30 years in Sydney, Brisbane and Melbourne and has previously shown with Tim Olsen Gallery, Utopia Gallery and Damien Minton Gallery. Tuckwell is widely represented in public, private and corporate collections, including MCA Australia, Artbank, City of Sydney, New England Regional Art Museum, Tamworth Art Gallery, Bathurst Regional Gallery and Allens Linklaters.

This exhibition is comprised of a new series of paintings on paper accompanied by collages and works on board. *Abstraktiv* is her fifth exhibition at Gallery 9.
